

ABOUT

The **Mosquito Lamp** is a patented, eco-friendly mosquito deterrent that provides safe and effective protection without harming insects. Utilizing innovative yellow light technology and ultrasonic-like frequency tones, this compact and portable device helps maintain a mosquito-free environment in both indoor and outdoor spaces. Its chemical-free operation makes it a sustainable and environmentally friendly pest control solution, ideal for homes, travel, and outdoor use.

INSECTEC

MOSQUITO LAMP

TECHNICAL SPECIFICATIONS

- Effective Range: Up to 10m²
- Light Frequency Range: 570–590 nm
- Color Temperature Options: 2200K (Warm) / 6500K (Cool)
- Power Source: Rechargeable Lithium-Ion Battery
- Charging Interface: USB Micro
- Lighting Modes: High / Low
- Material: ABS plastic with impact resistance, Metal Hook, Magnet
- Size: Diameter 95 x 50 mm
- Weight: 220 g
- WEEE Reg. No.: DE 33439679

WHAT'S IN THE BOX

- 1 x Mosquito Lamp
- 1 x USB Micro Charging Cable
- 1 x User Manual

WHITE LABEL CUSTOMIZATION

- **Minimum Order Quantity:** 460 pcs | 8 Pallets
- **Customizable Features:**
 - Logo Placement
 - Packaging Design
 - Color Options
 - Branding & Design

KEY FEATURES

- **Innovative Light Technology:** The yellow light creates the illusion of absolute darkness for mosquitoes, forcing them into a "blind flight" and encouraging them to settle.
- **Ultrasonic Like Frequency Tones:** Electrical vibrations simulate strong wind and predator sounds (e.g., bats), creating an environment that feels dangerous for mosquitoes.
- **Eco-Friendly and Humane:** Protects mosquitoes and the environment while preventing bites, offering a chemical free and sustainable solution.
- **Compact and Portable Design:** Lightweight with a metal hook and magnet for flexible placement in various spaces.
- **USB Powered:** Convenient USB charging ensures portability and ease of use in any location.

APPLICATIONS

- **Home Use:** Ideal for bedrooms, kitchens, and small living spaces, ensuring a mosquito-free environment.
- **Outdoor Use:** Perfect for patios, camping trips, and outdoor gatherings, offering both mosquito protection and ambient lighting.
- **Travel Companion:** Compact and portable, making it a convenient on-the-go mosquito repellent for hotels and travel destinations.

Why Choose the Mosquito Lamp?

The INSECTEC Mosquito Lamp offers a safe, effective, and eco-friendly solution for repelling mosquitoes without the use of chemicals or harmful substances. By combining innovative light and sound technology, it protects indoor and outdoor spaces while doubling as a versatile, energy-efficient lighting source. Whether at home, while traveling, or outdoors, this multi-functional device ensures comfort, convenience, and peace of mind.
